WORK PACKAGE 7

TUESDAY APRIL 28TH

This week's Lessons

- **Lesson 7 Solar Radiation:** Read through this lesson, **highlighting** or otherwise making some extra notes on what you think is important information. All the fill in the blank notes are filled in for you in this lesson. There are some points in the lesson where your textbook is mentioned, and it indicates where in the textbook you can find more information on the subject. Your only task is to read through the lesson and become familiar with the terms and material.
- **Lesson 8 Wind and Ocean Currents:** Read through this lesson, making notes and highlighting portions you think are important for you to remember. All the fill in the blank notes are filled in for you in this lesson. Again, there are some indications on where to look in your textbook for more information on winds and ocean currents. Some YouTube videos can also help you out when you don't feel you understand. Your task again is to read and try to understand the materials and be ready to find the information needed when working on future assignments.

This week's Activities

- **Assignment 4 – Atmospheric Pressure:**
This is a review assignment; to improve your knowledge of pressure systems and atmospheric pressure. You may use your notes to complete this assignment. Once you have completed this assignment you can hand it back in to me for term 2 marks when you next hand in work to the school or to the bus if you are receiving bus drop offs and pick ups, however it works.

<u>Lesson #</u>	<u>Possible dates for completion</u>
<u>Assignment 4 – Atmospheric Pressure</u>	30 April
<u>Lesson 7 Solar Radiation.</u> (notes)	4 May
<u>Lesson 8 Wind and Ocean Currents</u> (notes)	4 May

Instructions

As you continue to work through these work packages, keep in mind that only assignments need to be turned in, not full lessons of notes. You can keep your notes!

Use the “Homework Hand in Checklists” to know which assignments need to be returned for marks and which ones to keep for yourself for future assignments.

Weather Assignment 4 – **Atmospheric Pressure**: needs to be completed and handed back into me when you can.

Please remember to put your name on every assignment you hand in.

First name and last name please! Thank You!!!

If you have any questions or concerns, please don't hesitate to contact me:

At school – Phone: (204) 367-2296

At Home – Phone: (431) 808-0816
