

SCIENCE 20F

WEATHER / PHYSICS

WORK PACKAGE 9

TUESDAY MAY 12TH

This week's Assignments

<u>Lesson #</u>	<u>Possible dates for completion</u>
<u>Assignment 7 – Unit Review.</u>	15 May
<u>Lesson 1 – Introduction to Motion</u>	18 May

This week's instructions

- Assignment 7 Weather: **Unit Review**: This assignment is a complete Unit review assignment. There will be numerous types of questions such as “fill in the blank”, “short answer”, “multiple choice”, and “diagrams”. You will find the answers to these questions throughout all your notes from the weather unit. Once this assignment is completed, please remember to send it back to school when you are finished. Please put your name at the top!

Unit 4 - Physics

- Lesson 1 **Introduction to Motion**: This is my first lesson of the Physics Unit. Because we are not in class and are unable to do many of the fun physics labs, we will have a condensed Physics unit this year. I will be including lots of information and a complete list of terms and definitions to help you navigate the materials. Please read the notes and make some extra notes for yourself, highlighting

certain parts, or write down questions you may have for me. Keep these notes at home.

As you continue to work through these work packages, keep in mind that only assignments need to be turned in, not full lessons of notes. You can keep your notes and Work Package instructions at home! Thank You

Weather Assignment 7 - **Unit Review**: needs to be completed and handed back in to me when you can.

Please remember to put your name on your assignments, first and last name!

If you have any questions or concerns, please don't hesitate to contact me:

At school – Phone: (204) 367-2296

At Home – Phone: (431) 808-0816
