

SCIENCE 20F

UNIT 4 MOTION

WORK PACKAGE 13

TUESDAY JUNE 9TH

Unit 4 - Physics

Last work package you likely completed lesson package 6,7,8,9 and completed the third assignment – **Physics Assignment 3** for marks and sent it back to me at the school.

Today we have finished the condensed version of the Physics unit.

There is one final review assignment. However, I think you have worked hard enough! Therefore, I am not sending it home. Your Welcome! ;). There is no work in this work package. You are still welcome to keep completing assignments that you have not yet finished from any portion of the “Work from home” second term in science. I will continue to mark every assignment that is handed in until the 19th of June. I will not accept any work after the 19th of June as that is the cut off date for work to be handed in for the second term. From that point, I will be writing report cards.

If you have completed enough assignments, you will have earned your credit with your all your hard work and your increased mark will be the evidence of the effort you put in over the school closure.

If your mark was already above 50% at the first term report card and you completed some or a little work, it is likely that you will have passed the course.

If your mark was below 50% at the first term report card and you completed enough work, it is possible that you will have passed the course.

<u>Lesson #</u>	<u>Possible dates for completion</u>
<u>Hand in all missing assignments by:</u>	June 19th

Please remember to put your name on your assignments, first and last name!

I am now back working from school every day, so I can be contacted at the school directly by phone and still by email if you have questions or need help finishing assignments.

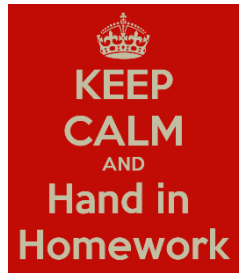

If you have any questions or concerns, please do not hesitate to contact me:

At school – Phone: (204) 367-2296
